

Rexford Center Equestrian Drill Team

Here comes the Rexford Center Equestrian Drill Team from Lenox, Michigan. You're watching volunteers who support the therapeutic riding programs offered by the Rexford Center at First Impression Farms. These fine young riders give their time and energy to help mentally or physically challenged adults and children experience the joys and benefits of being on horseback. Therapeutic riding provides both physical and mental benefits that are always rewarding and sometimes miraculous.

The Rexford Center is always looking for additional volunteers and financial support for their programs. Call 586-749-6661 to volunteer or stop by the Farm on 32 Mile Road just four farms west of Haven Ridge Road.
